建築基礎工法

Beton u. Stahlbetonbau, 50-12, 55-12

Das neue Zuschauerhaus der Hamburgischen Staatsoper. *Bültmann, W. & Timm, R.*

Vorschlag für die Knickberechnung ausmittig gedrückter Stäbe mit Hilfe der erhöhten Ausweichzahlen von Jäger. *Habel, A.*

Die voll mittragende Breite bei Plattenbalken. *Bechert, H.*

Berechnung von Faltwerken nach dem Zusammensetz-Verfahren. *Valentin, W.*

Die Berechnung der trägerlosen, geraden Podesttreppe. *Freihart, G.*

Civil Engineering, 55-12.

Circular Shell Dome cast on earth mound. *Fricke, F.J.*

Spillways as designed by Corps of Engineers. *Stichter, F.B.*

Aluminum alloys more into structural markets. *Pickett, J.M.*

Prestressed concrete bridge in Cuba spans nearly 300 ft. *Martin, L.I.*

Construction Methods & Equipment 38-1, 56-1.

Dirt Flies on Massachusetts Turnpike.

Roof Slab Serves as Truck Road.

Flexible Plant Pours Out Aggregate.

Caisson Builders Conquer Mississippi.

Paving……How to Get the Best Results.

Simple Forming is Key to Prestressing.

Portable 70-ton Shores Support Pier.

U-Shaped Dozer Blade Digs Clay.

Das Gas- und Wasserfach, 96-24, 55-12.

Wasserschließung und Wasserversorgung in Französisch-Nordafrika. *Kurt, S.*

Der Neubau der Hennetalsperre in Einzugsgebiet der Ruhr. *Koerug, H.W.*

Wasserwerk Mühlhof in Nürnberg. *Müller, K.*

Die Bautechnik, 32-12, 55-12.

Überlegungen zur Ausgestaltung der Auflager von Bogenstaumauern. *Semenza, Carlo.*

Die Berechnung einachsiger ausgesteifter Gründungsplatten. *Grasshoff, Heinz*

Die Arbeiten der Wasserbauverwaltung des Bundes im Jahr 1954. *Feyerabend, Alfred.*

Neue Baumaschinen und -geräte auf der Technischen Messe Hannover 1955. *Rathsmann, Erich.*

Dock & Harbour Authority, 36-422, 55-12.

The Port of Geelong, Victoria. *Phillips, R.R.*

The Hopper Dredge. *U.S. Army.*

Pneumatic and Similar Breakwaters. *Evans, J.T.*

Recent Metallurgical Progress. *Lomas, J.* (港湾)

Submarine Telephone Cable Loading.

New Gantry Cranes at Long Beach.

The Stabilisation of a Tidal Lagoon.

Eng. News-Record, 156-1, 56-1-5.

Teamwork keeps Job on Fast Schedule.

- A Drydock on a Drydock.
New Building to Ease Car Inspection.
Getting Painting Value by Scientific Control.
- Eng. News-Record, 156-2**, 56-1-12.
Terminal Subdivides Traffic for Efficiency.
Northwest Engineers Turn to Thin-Shell Roofs.
Double-core Curtain Walls for High Insulation.
- Eng. News-Record, 156-3**, 56-1-19.
U.S. Air Force Paves a Valley.
River Control Affects Water Supplies.
Answer to Reversible Tunnel Traffic Problem.
- Eng. News-Record, 156-4**, 56-1-26.
Tough River Crossing for Large Pipe.
Structure Deformations Measured by Photos.
Cable-Suspended, Folded-Plate Hanger Roof.
- Experimental Stress Analysis, 12-1**, 55.
Stress concentration in the history of strength of material. *Timoshenko, S.*
Structural analysis by electrical analogy. *Riez, G.W., Whippany, N.J. & Swain, B.J.*
Precise investigation of two model columns—experimental technique. *Benjamin, J.R.*
Stresses in oval tubes under internal pressure. *Weydert, J.C.*
A new cementable material for two and three dimensional photoelastic. *Frocht, M.M. & Hui Pih.*
A photoelastic study of multibarrel conduit. *Pant, B. & Mantle, J.B.*
Application of Experimental stress analysis to torsion research. *Work, C.E. & Dolan, T.J.*
A method of deriving residual stress equations. *Lembert, J.W.*
A piezoelectric strain gage. *Ripperger, E.A.*
Experimental analysis of the buckling of cylindrical shells subjected to external hydrostatic pressure. *Work, E., Nash, W.A. & Slankard, R.C.*
The use of photometric devices in the solutions of the general three dimensional photo-elastic problems. *Frocht, M.M., Hui Pih & Landsberg, D.*
A new photoelastic interferometer suitable for static and dynamic measurements. *Post, D.*
- Experimental Stress Analysis, 12-2**, 55.
Stress proving—A rapid method for stress-surveying. *Gross, N. & Lane, R.*
High speed universal fatigue testing machine. Verification of statically calibrated mechanical-optical dynamometer. *Russenberger, M. & Földes, G.*
Bending of rotating beams. *Tiedemann, J.B.*
Creep in bonded electrical strain gages. *Matlock, H. & Thompson, S.A.*
New apparatus for study of deformation of clamped circular plates loaded with lateral pressure. *Hoppmann, W.H.*
Elimination of the transient strain fluctuation which result from longitudinal impact of bars. *Krafft, J.M.*
Quantitative three-dimensional photoelasticity. *Leven, M.M.*
Isochromatic fringe sharpening and fringe multiplication in photoelasticity. *Post, D.*
An analysis of plastic behavior of metals with bonded birefringent plastic. *D'agostino, J., Drucker, D.C., Liu, C.K. & Mylonas, C.*
Epoxy adhesive and casting resins as photoelastic plastics. *D'agostino, J., Drucker, D.C., Liu, C.K. & Mylonas, C.*
New progress in our knowledge about the moment distribution in flat slab by means of the Moiré method. *Vreedenburgh, C.G.J. & Wijngaarden, H.*
Test of the conducting paper analogy for determining isopachic lines. *Stokey, W.F. & Hughes, W.F.*
- Géotechnique, 5-3**, 55-9.
Influence of roughness of base and ground—water conditions on the ultimate bearing capacity of foundations. *Meyerhof, G.G.*
Stabilization by pressure grouting on American railroads. *Smith, R. & Peck, R.B.*
Foundation of structures on over-consolidated clay layers in São Paulo. *Vargas, M.*
- Gesundheits Ingenieur, 76-21/22**, 55-11.
Untersuchungen über das Belebtschlammverfahren für die Reinigung von Abwasser. *Pasveer, A.*
- HANSA, 92-49/50**, 55-12-3.
Erfahrungen im Laden und Löschen von Einheitslasten und Behältern. *Beck, E.* (港湾)
Sackverladungen in schnellen Häfen. *Teigelkamp, W.* (港湾)
- Jour. of A.C.I., 27-4**, 55-12.
Proposed Revision of Building Code Requirements for Reinforced Concrete (ACI 318-51). *ACI Committee 318.*
Effect of Carbon Dioxide on Fresh Concrete. *Kauer, J.A. & Freeman, R.L.*
Concrete Stress Distribution in Ultimate Strength Design. *Hognestad, E., Hanson, N.W. & McHenry, Douglas.*
Design of Cylindrical Shells with Edge Beam. *Fischer, L.*
- Jour. of App. Mech., 22-4**, 55-12.
A new approach to the analysis of large deflection of plates. *Berger, H.M.*
A study of the speeds of sounds in porous granular media. *Brandt, H.* (土質)
Linear systems with nonlinear dynamic vibration absorbers. *Arnold, F.R.*
Perturbation methods applied to nonlinear dynamics. *Bellman, R.*
Plastic deformations of a free ring under concentrated dynamic loading. *Owens, R.H. & Symonds, P.S.*
Torsion of circular shafts of variable diameter. *Abbassi, M.M.*
Large plastic deformation of circular membranes. *Weil, N.A. & Neumark, N.M.*
Buckling of laminated columns. *Clark, L.G.*
Force at point in the interior of a semi-infinite solid with fixed boundary. *Rongved, L.*

On the nonlinear oscillations of viscoelastic plates. *Eringen, A.C.*

Influence of secondary inertia term on natural frequency of rotating beams. *Bogdanoff, J.L.*

Jour. of Boston Soc. of C.E., 42-4, 55-10.

Development of prestressed concrete in bridge construction. *Rundlett, J.C.*

Improvements to new Bedford's Sewerage Facilities, including intercepting sewers and pumping stations. *Heaney, F.L.*

Sanitary engineering in Alaska. *Sterling, C.I.*

Graphical solution for torsional problems hydrodynamical analogy. *Wargon, A.*

La Houille Blanche, 10-B, 55-9.

Analyse succincte des conditions météorologiques qui ont présidé à la crue de la Seine en janvier 1955. *Fontaine, P.*

Application aux crues de la Seine, notamment celles de janvier et février 1955, d'une méthode d'investigation des bassins fluviaux en état de réagir à de nouvelles précipitations. *Fontaine, P.*

Contribution à l'étude de la corrélation entre les précipitations, les débits de sources et les niveaux de nappe dans le bassin amont de la Seine. *Koch, P.*

Considérations théoriques sur le maintien en suspension de particules solides dans un courant turbulent uniforme. *Bouvard, M.*

Mesure de la concentration en gaz d'une émulsion gaz-liquide par absorption de rayons γ . *Hours, R.*

Recherches récentes en Océanographie littorale. *Rivière, A.*

Les transports littoraux sur les plages de galets. Application au port des Galets à l'île de la Réunion. *Lhermitte, P. et Germain, J.*

Abaque caractérisant le fonctionnement d'une cheminée déversante à étranglement optimum. *Escande, L.*

Essai d'explication du mécanisme de la marée dans le golfe de Saint-Malo. *Lacombe, H.*

Proc. A.S.C.E., 81-842/860, 55-12.

The Action of Soft Clay along Friction Piles. *Seed, H.B. & Reese, L.C.* (No. 842) (土質)

Discussion of Proceedings Papers No. 475, 477, 513, 550, 570, 754, 755, 756. (No. 843) (土質)

The Use of Topographic Maps in Highway Location. *Owens, C.P.* (No. 844) (測量)

Discussion of Proceedings Papers No. 277, 407, 575, 722, (No. 845) (測量)

A preliminary Study of High-rate Composting. *Wiley, John S. & Pearce, George W.* (No. 846) (水道)

Experiences with a New Type of Dairy Waste Treatment Progress Report of the Sanitary Engineering Research Committee, Industrial Waste Section. (No. 847) (水道)

Discussion of Proceedings Papers No. 472, 645, 750. (No. 848) (水道)

Discussion of Proceedings Papers No. 542, 733, 734, 735. (No. 849) (構造)

Some Wind Tunnel Design Problems. *Cook, W.*

K. (No. 850) (構造)
